

PRESS RELEASE

Reliable support, local expertise: Ekoenergetyka announces service partnership in Denmark

Zielona Góra, Poland, 27.05.2025 – Ekoenergetyka-Polska S.A. is pleased to announce that Sargo has officially joined our network of trusted service partners, taking on responsibility for supporting Ekoenergetyka's DC charging infrastructure in Denmark.

This week, a team of eight Sargo representatives – including the CCO, COO, Service Manager, Team Leader, and five technicians – is participating in an intensive certification program at **Ekoenergetyka's Training Center in Zielona Góra, Poland**. The program focuses on Ekoenergetyka's advanced DC charging technology and marks the start of a promising new collaboration.

"When selecting a service partner in a new market, we look for more than technical capabilities – we look for reliability, experience, and a shared commitment to quality. Sargo stood out to us as a company with strong technical foundations, a well-established service culture, and proven experience in EV infrastructure. We are confident this partnership will ensure our Danish customers receive the high level of local support they expect from Ekoenergetyka," adds **Benjamin Seerup, Key Account Manager, E-Mobility at Ekoenergetyka**.

Sargo will be responsible for **installation, maintenance, and technical support of Ekoenergetyka's chargers**, helping ensure high uptime and reliable operations across Danish EV networks.

"We are proud to be selected as Ekoenergetyka's service partner in Denmark. It's a strong recognition of our technical capabilities and our commitment to delivering reliable, local support for EV infrastructure," says Jan Sachmann, CCO at Sargo.

With operations in over **40 countries**, Ekoenergetyka is one of Europe's leading manufacturers of **high-power DC charging solutions**. The appointment of Sargo further strengthens our presence in Denmark and reinforces our commitment to delivering localized, high-quality service across all markets.

About Sargo

Sargo is a Danish manufacturer and nationwide service partner in E-Mobility. We design and produce AC charging boxes in Denmark and provide service on both AC and DC solutions – with a focus on quality, durability and responsible technology.

The name *Sargo* means “*to charge*” in Esperanto – a language created to connect people. That’s exactly what we aim to do: connect people, technology, and sustainable mobility.

Sargo builds on more than 80 years of technical experience from Hamag A/S.
